Objectives of the M.A.in Education Programme

Through the M.A. (Education) Programme the students will be helped to:

- Understand the nature of education as discipline/area of study.
- Encourage understanding of the basic concepts/issues of education especially with reference to the kind of concerns shown in modern pedagogical approaches and their relevance in local, national and international contexts.
- Understand how concepts theories/issues drawn from disciplines cognate to education, i.e. Psychology, Sociology, Philosophy, Research Methodology, Technology, Inclusion etc; could be used/practiced suitably in the perspectives of teaching-learning at various levels & research in education.
- Appreciate the challenge of theorizing education and identify relationship between theory and practices;
- Understand the changing need and context of school, teacher and higher education.
- Learn the skills required for playing different roles in different areas of educational institutions;
- Understand the linkage between education and national development;
- Gain an understanding on cognitive Psychology and the process of learning;
- Develop a rational conceptualization of educational research;
- To reflect on the multiple contexts in which the schools, TEIs and HEIs;
- Integrate information and communication technology to instructions and training of teachers at different levels;
- Develop skills among students to manage internship, practical and in-service training programmes;
- Develop competency in students in development of curriculum, syllabus, textbooks, and instructional materials, evaluation and assessment;
- Develop ability to analyse and reflect upon his professional experience;
- To understand the process of school, teacher and higher education and the various factors enriching the processes;
- To understand the emerging vision of school, teacher & higher education and
- To sharpen epistemological, axiological and ontological perspectives of education at different levels.

PAPER (Course) –I

PHILOSOPHICAL FOUNDATION OF EDUCATION

Total Marks: 100

Contact hours per week: 5

Internal Assessment: 30

External Assessment: 70

Course Objectives:

On the completion of course the student shall be able to:

- Understand the concept and functions of Education.
- Establish the relationship between Education and philosophy
- Describe Indian and Western school of philosophy and evaluate their implications
- Describe Indian and Western educational thinkers' thought on Education

Unit-I Education, Philosophy and Educational Philosophy

- Meaning nature and scope of Education, Functions of Education
- Concept of Philosophy, Branches of Philosophy, Functions of Philosophy, Concept of Educational Philosophy
- Relationship between Education and Philosophy
- Relevance of Educational Philosophy for a teacher and its significance for the system of education

Unit-II Indian Schools of Philosophy and their Educational Implications

- Sankhya
- Yoga
- Vedanta
- Buddhism
- Jainism

PAPER(Course) –III

ADVANCED EDUCATIONAL PSYCHOLOGY

Total Marks: 100

Contact hours per week: 5

Internal Assessment: 30

External Assessment: 70

Objectives:

On the completion of the course the student will be able to

- Evaluate the concept of educational psychology and establish relationship between education and psychology.
- Describe the contribution of different schools of psychology to education.
- Explain the contribution of the theories of education.
- Elaborate the concept of growth and development and different developmental stages.
- Explain the concept and theories of motivation.
- Elaborate the assessment of personality, intelligence and creativity.
- Define the concept of mental health and hygiene.

Unit-I Educational Psychology. Schools of Educational Psychology

Meaning, nature and scope of educational psychology. Relationship between education and psychology, contribution of different school of psychology, behaviouristic, Gestalt, Hermit and Psychoanalysis, Methods of Educational Psychology (observation, case study, experimental)

Unit-II Growth and Development and Individual Difference

Growth and development – Meaning, Principles and differences, Physical, social, emotional and cognitive.

Individual differences: - concept, type of determinants, factors and educational implication. Cognitive theory (Piaget, Bruner), Kohlberg's moral development theory.

Unit-III Learning and Learning Theories

Learning – concept, factors affecting learning, its theories. Behaviouristic – classical conditioning, operant conditioning, Trial and error theory, Cognitive theory – Insightful learning Gagne's hierarchy of learning, social learning theory (Bandura), constructivism theory (Vygotsky) with reference to educational implication, Transfer of learning

Unit-IV Personality, Intelligence, Creativity and Mental Processes

Personality – concept, theories (type trait and psychoanalytic), Assessment of personality and role of teacher in personality development.

Intelligence: - concept, theories and assessment.

Creativity – concept and assessment

Motivation - concept, types and theories

Thinking process: - concept and tools, types- divergent, convergent, critical, reflective and lateral thinking.

Memory: - concept, types and strategies to develop memory.

Problem solving, Mental health and hygiene, Adjustment mechanism

PAPER (Course) –IV

METHODS OF EDUCATIONAL RESEARCH AND STATISTICS

Total Marks: 100

Contact hours per week: 5

Internal Assessment: 30

External Assessment: 70

Course objectives:

On the completion of the course the student will be able to

- Understand the concept of research and educational research.
- Describe the scientific method of research
- Differentiate between qualitative and quantitative method.
- Conduct a literature search and develop a research proposal.
- Formulate hypothesis for the studies.
- Employ sampling designs appropriate to their study
- Compute relevant measures of variation
- Calculate the significant difference between two set of independent and correlated samples

Unit –I Research in Education: Conceptual Perspective

Concept of Research, meaning, nature, need and scope of Educational Research, Scientific method, step, characteristics ((Replicability, Precision, Falsifiability and Parsimony), Types of Research (Fundamental, Applied and Action) Approaches to educational research (Qualitative and Quantitative)

Unit –II Data Collection and Tools of Educational Research

Concept of universe and sample, sampling concept, types and technique, Review of related literature –Need, source and methods.

Variables – meaning and types.

Hypothesis: - Types, formulation and type I and Type II error of hypothesis testing

Sujata Mishra

Dr. P. K. Mishra

Dr. P. K. Mishra

Dr. P. K. Mishra

Dr. P. K. Mishra

Tools of Research: - Validity Reliability and standardization of a tool, types of tools (Rating scale. Attitude scale, questionnaire, Amplitude test inventory, Achievement but) Techniques of research (observation, interview and projective techniques)

Preparation of research proposal and writing a research report, reference Writing.

Unit –III Descriptive Statistics

Importance of statistics in education research, measure of central tendency - Mean, Median, Mode; Measures of variability - Range, Average Deviation, Standard Deviation

Correlation – Rank difference, Product moment, partial and multiple correlations

Unit –IV Inferential Statistics

Normal probability curve and its application, concept of standard error, its uses and significance; Type I and Type II error.

The t-test for independent and non – independent samples, chi-square test, analysis of variance.

PAPER (Course)-V

DEVELOPMENT OF EDUCATION SYSTEM IN INDIA

Total Marks: 100

Contact hours per week: 5

Internal Assessment: 30

External Assessment: 70

Course Objectives:

On the completion of course the student shall be able to:

- describe the common links into the past and present system of education.
- explain the system of education in Vedic period and post Vedic period
- elaborate the system of education on Buddha, Jain and Muslim period
- analyse the impact of the recommendation of different committees and commissions on Indian education in British period
- explain the reasons of appointment or formulation of the commissions
- elaborate the recommendation of different committees and commission
- analyse the different National Policy documents

Unit-I: Education System in Ancient and Medieval India

Pre-Vedic, Vedic, Post Vedic, Buddhist, Jain and Muslim period with special reference to characteristics, aims of education, Methods, Curriculum, Discipline and student life.

UNIT-II: Education in Modern India,

Education during British period missionaries, charter act (1813), Macaulay's minutes on education and its main recommendation, wood's despatch commission, Hunter commission – its importance in Indian education and their main recommendation

Sugata Mishra

Dr. Anil Kumar Singh

K. S. Singh

Anand

E

UNIT-III: Education Commission during Post Independence Period
Radhakrishnan commission (1948), Secondary education commission (1952-53),
Kathari commission (1964-66), Education Commission (1968), POA (1992),
Ramamurti Committee (1990)

UNIT-IV: National Policy Documents NKC –

Indian Knowledge system, Elementary, secondary and higher education, NKC on
management of education, National curriculum framework 2005, Yashpal
committee report (2009), National curriculum framework for teacher education
(2009), Justice Verma committee report (2012).

Paper (Course) –VI

MEASUREMENT AND EVALUATION

Total Marks: 100

Contact hours per week: 5

Internal Assessment: 30

External Assessment: 70

Course Objectives:

On the completion of course the student shall be able to

- differentiate between assessment, evaluation and measurement.
- describe the scale of measurement.
- use wide range of evaluation tools that aid student learning's.
- evaluate dynamic, realistic and comprehensive assessment procedure.
- prepare a good achievement test.
- describe the characteristics of a good test.
- define the concept of portfolios, rubrics and competency based evaluation.

swati mishra

Dr. Anurag Singh

Karl

Winnat

Unit-I: Assessment and Evaluation in Education

Concept of Assessment Measurement and evaluation, types of evaluation (Placement, formative, diagnostic and summative) relation between objectives and outcomes, bloom's taxonomy, Instructional objectives based evaluation, Assessment of cognitive (Anderson, Karthwohl), Affective (Karthwohl) and psychomotor domain (R.H. Dave) of learning.

UNIT-II: Trends in Assessment

Scales of measurement – Nominal, Ordinal, interval and Ratio.

Test measurement – Evaluation, Cognitive and non-cognitive test, Norm reference and criterion reference testing, Continuous comprehensive Evaluation, Choice based credit system, Marks and grade, semester system, Assessment of learning, Assessment for learning use of computer in education.

UNIT-III Tools and Techniques

Tools and techniques as assessment and evaluation, Testing and non testing tools, observation, Projective, sociometric, Type of evaluation tools – rating scale, intelligence test, attitude scale, Interest inventory, Anecdotal record achievement – Teacher made test and standardization of an achievement test.

UNIT-IV Assessment in Pedagogy of Education

Characteristics of a good test and norms, Feedback devices, meaning, types, criteria, Guidance as a feedback device, Assessment of portfolios, Reflective journal, Rubrics, Concept mapping and Project, Constructivist evaluation, Peer and collaborative evaluation, competency based evaluation.

PAPER (Course)-VII
CURRICULUM STUDIES

Total Marks: 100

Internal Assessment: 30

Contact hours per week: 5

External Assessment: 70

Course Objectives:

On the completion of course the student shall be able to

- explain the concept, approaches and bases of curriculum
- describe curriculum design and organization
- elaborate curriculum development
- explain curriculum development
- describe the importance of curriculum on evaluation

Unit-I Conceptual Framework and Bases of Curriculum

Meaning and definition of curriculum, principles of curriculum, Approaches to curriculum, History of curriculum development, Bases of curriculum – Philosophical, Psychological, Sociological and discipline-oriented.

Unit-II Curriculum design and organization

Components and sources of design, Principles and different models of curriculum- Traditional and temporary models, System analysis, Patterns of curriculum, Unit planning

Unit-III Curriculum Development

Factors contributing curriculum development - needs of learner and society, Principles of curriculum development, Instructional system, Instructional media, Instructional techniques and materials in enhancing curriculum transaction.

University Commission – 1948

Sujata Mishra

PAPER (EPC)-VIII

Course Objectives:

- To provide practical skill in selection and identification of research problems
- To provide skill of constructing a research tool for collection of qualitative and or quantitative data

Course Content/Activity

Each student will identify a research problem and prepare research proposal in guidance of a teacher

Each student will construct & standardize a research tool for data collection (preferably related to the research problem identified) in guidance of a teacher

 Sujata Mishra Anurag Mishra Anurag Karan Anmol

SEMESTER-III

Sujata Mishra ~~Praveen Kumar Mishra~~ ~~Praveen~~ ~~Kant~~ ~~Praveen~~

PAPER – IX
EDUCATIONAL TECHNOLOGY

Total Marks: 100

Contact hours per week: 5

Internal Assessment: 30

External Assessment: 70

Course Objectives:

On the completion of course the student shall be able to

- define the concept of educational technology
- know the application of Educational Technology
- explain the communication process.
- describe Educational Design & E-Learning
- elaborate the teaching variables and different strategies of Educational Technology.
- describe emerging trend in Educational Technology.

Unit-I Concept, Component and Application of Educational Technology

Concept of Educational Technology, component of Educational Technology – Software and Hardware, Application of Educational Technology in formal, non-formal learning (Open and distance learning). ICT – characteristics, applications and challenges.

Unit-II Communication

Communication – concept, barriers, Types and models of communication, Audience Analysis, Virtual communication: Social media, Advantages and disadvantages.

Instructional Objectives – Domains and writing of instructional objectives.

Unit-III Educational Design & E-Learning

System approach to educational design. Models of development of instructional design. (ADDIE, ASSURE, Dick and cagey model Mason's), Gagne's Nine Events of instruction and Five E's of constructivism, Nine Elements of constructivist Instructional design, Application of computer in

Sujata Mishra. 2019-2020-21-22

Pragati

Karl

Wendy

32

Education. Concept of E-learning Approaches to learning (Offline, online, synchronous, Asynchronous, Blended learning, mobile learning).

Unit-IV Teaching, Micro teaching, Interaction Analysis, Programmed Learning, Teaching Aids

Teaching variables and their function, levels of teaching (Memory, understanding and Reflective) Micro teaching – Concept, Phases and Micro teaching skills, Simulated Teaching, Interaction analysis Programmed learning (Origin and Type).

Emerging trend in Educational Technology, Audio-Visual Aids (Hardware, Software), Need, Importance, Principle, Precautions and uses.

PAPER-X/XI (Special Paper)

**EDUCATIONAL MANAGEMENT, ADMINISTRATION
AND LEADERSHIP**

Total Marks: 100

Contact hours per week: 5

Internal Assessment: 30

External Assessment: 70

Course Objectives:

On the completion of course the student shall be able to

- become effective manager/administrators of education.
- become agents of change in various aspects of education i.e. classroom

Suzala mikuza gusa hawana maji

Karl
Werner

34

management, curriculum construction, examination systems, educational policies, etc.

- acquaint with the challenges and opportunities emerging in the management and administration in education.
- acquaint with the Central and State mechanisms of educational administration and management.
- acquaint with the various leadership theories and leadership styles

Unit-I Educational Management and Administration

- Educational Management and Administration – Meaning, Principles, Functions and importance
- Development of modern concept of educational management, Management as a system, SWOT analysis,
- Administration as a process, Administration as a bureaucracy, Human relations approach to Administration

Unit-II Leadership in Educational Administration

- Leadership in Educational Administration: Meaning and Nature,
- Approaches to leadership: Trait, Transformational, Transactional, Value based, Cultural, Psychodynamic and Charismatic,
- Models of Leadership

Unit-III Concept of Quality and Quality in Education

- Concept of Quality and Quality in Education: Indian and International perspective,
- Quality of Education in India
- Evolution of Quality: Inspection, Quality Control, Quality Assurance, Total Quality Management (TQM), Six sigma,
- Quality Gurus: Walter Shewart, Edward Deming, C.K Pralhad

Unit-IV Change Management

- Change Management: Meaning, Need for Planned change,
- Three-Step-Model of Change (Unfreezing, Moving, Refreezing),
- The Japanese Models of Change: Just-in-Time, Poka yoke,
- Cost of Quality: Appraisal Costs, Failure costs and Preventable costs,
- Cost Benefit Analysis,
- Cost Effective Analysis,

PAPER-X/XI (Special Paper)

GUIDANCE AND COUNSELLING

Total Marks: 100

Contact hours per week: 5

Internal Assessment: 30

External Assessment: 70

Course Objectives:

On the completion of course the student shall be able to

- understand the Concept, Nature, Scope and purposes of Guidance
- describe types of guidance and agencies of guidance
- describe concept of counselling, techniques of Counselling and role of counsellor
- understand the concept of stress management and role of guidance and counselling in stress management.

Unit-I Meaning of Guidance and Counselling

- Definition Nature Scope and Functions of Guidance and Counselling
- Types of Guidance and Counselling
- Purposes of Guidance
- Role of various community agencies in school guidance program

Unit-II Educational, Vocational Personal Guidance

Sufate misha

Dr. Anil Kumar

phogel

Karl

Wmsh

- Concept, Meaning and Need for Educational, Vocational and Personal Guidance
- The Guidance Programme at Primary, Secondary and College Level
- Promoting Parental Collaboration in Educational Guidance.
- Organisation of a Guidance Programme

Unit-III Counselling

- Concept of counselling: Types of counselling: directive, non-directive and eclectic.
- Process of counselling (initial disclosure in depth exploration and commitment to action).
- Techniques of Counselling
- Qualities of a Counsellor
- Role of teacher as a counsellor and professional ethics associated with it.

Unit-IV Stress and Stress Management

- Meaning of Stress and Stress Management
- Role of Guidance and Counselling in Stress Management
- Internal and External Stressors
- The Effects of Acute and Chronic Stress

PAPER-X/XI (Special Paper)

YOGA EDUCATION

Total Marks: 100

Contact hours per week: 5

Internal Assessment: 30

External Assessment: 70

Course Objectives:

On the completion of course the student shall be able to

- comprehend the concepts which support the Yoga Philosophy like the Purusha and Prakriti, Budhi (Mahat) and Ahamkar etc.
- understand the meaning and relevance of yoga as a way to spiritual ascent of man via physical and mental integration
- understand different types of Yoga - The Ashtanga yoga, the Jnana yoga, Bhaktiyoga, and other modern offshoots.
- understand the socio-psychological basis leading to a dynamic transformation of personality.
- understand the scientific basis and therapeutic values of yoga.

Unit-I The Philosophy of yoga and its relationship to individual and social upliftment

- The meaning and definitions of Yoga
- Basic Concepts in Yoga: Concept of Purusha (pure consciousness) and Prakriti, Budhi (Mahat) and Ahamkar (The Ego), Mana (the mind), karmendriyas, Jnanendriyas, Tanmatras (the SukshamSharir)
- Yoga as a way to healthy and integrated living
- Yoga as a way to socio-moral upliftment of man
- Yoga as a way to spiritual enlightenment: Atmanubhuti, Pratyekabuddha

Unit-II Different types of yoga systems and characteristics of yoga practitioner

- Ashtanga yoga of Patanjali
- Jnana yoga, Bhakti yoga and karma yoga of the Bhagavad Gita
- Integral yoga of Aurobindo and modern off shoots of yoga

PAPER-X/XI (Special Paper)

POPULATION EDUCATION

Total Marks: 100

Contact hours per week: 5

Internal Assessment: 30

External Assessment: 70

Course Objectives:

On the completion of course the student shall be able to

- understand the nature scope and need of population education,
- know about the factors affecting population growth and understand the need for balancing the composition through distribution.
- gain knowledge about the various techniques of maintenance of "status" of population.
- understand the concept of prosperous family.
- To learn about the latest policies of population education and agencies working towards their achievement.

Unit-I Nature and Scope of Population Education

Population Education: Meaning, Concept, Need and importance of population education, objectives of Population Education.

Unit-II Population Situation and Dynamics

Population: Distribution and density; population composition – age, sex, rural/urban, world and Indian, factors affecting population growth, mortality, migration and other Implications.

Unit-III Population and Quality of Life

Population in relation to socio-economic development; health status health service: nutrition, environment, resource educational provision.

Unit-IV Family Life Education, Population related policies

Concept of family, family role and responsibilities, family needs and resources, responsible, responsible parenthood, life values and beliefs.

Population policy in relation to health-environment education policies.

PAPER (EPC)-XII

Course Objective of Part A (Seminar)

Through this paper students shall be able to

- get updated information on key issues concerning education by recognized experts who are up to date with the latest developments in the field and practical experiences.
- exchange their own knowledge, expertise, experiences, and ideas on educational & social problems among themselves as well as with the recognized experts and thus to get their perspectives broadened.
- identify specific educational problems and reach an agreement with best possible solutions applying brainstorming techniques, discussions on the problems, raising questions, sharing ideas and getting immediate feedback.
- Receive new information or the same information they may already have from a different angle from a different speaker so that they have an even better understanding of the topic.
- Learn new skills and procedures during field work, seminars & workshops.
- apply the skills and knowledge they have learned to solve their current educational problems as well as problems related to their future jobs.
- Expand their social networking with like-minded people for engaging conversation and meeting new friends who understand their lingo
- Get presentation materials to take home with them for later study
- Evaluate how Seminars are organized and managed.

Course Content/Activity

A: Organizing weekly Departmental Seminar and preparation, preparation of brochure, identification of theme and sub themes for each weekly seminar (group work) & presentation of at least two papers on any two themes in any two seminars by each student (individual work)

Course Objective of Part B (Communication & Expository Writing)

After going through this course the students will be able to understand

- Needs, process and barriers of effective communication
- and develop Verbal Communication Skills
- and develop different kinds of Academic, technical and professional writing skills

Sujata Mishra

Dr. Jyoti Choudhary

Dr. Jyoti Choudhary

Dr. Jyoti Choudhary

Dr. Jyoti Choudhary

- Different modes of Verbal, Non-Verbal Communication & technology based communication

Course Content/activity

- Need for Effective Communication
- **The Process of Communication:** Levels of communication; Flow of communication; Use of language in communication; Communication networks; Significance of technical communication.
- **Barriers to Communication:** Types of barriers; Miscommunication; Noise; Overcoming measures.
- **Verbal Communication:** Oral presentation and public speaking skills, Interview, Group Discussion, Debate etc.
- Non-verbal Communication and Body Language: Forms of non-verbal communication; Interpreting body-language cues; Kinesics; Proxemics; Chronemics; Effective use of body language.
- **Report Writing:** Basics of Report Writing; Structure of a report; Types of reports.
- **Expository & Academic writing:** Types, features and the essential requirements, Academic sources and how to refer to them? How to cite a source, paraphrase and acknowledge the source? How to edit one's own writing?
- **Technology-based Communication:** Netiquettes: effective e-mail messages; power-point presentation; enhancing editing skills using computer software.

PAPER –XIII

INCLUSIVE EDUCATION

Course Objectives:

On the completion of course the student shall be able to

- discuss the meaning, principles, scope of Inclusive Education
- describe the legal provisions for disabled and marginalised persons
- discuss the provision for Inclusive Education in different policy documents
- discuss the concept of impairment
- discuss the causes and prevention measures of impairment
- suggest the curricular, infrastructure related and methodological measures to provide inclusive education
- Barriers, Facilitators, Ethical issues and Research trends in Inclusive Education

Unit-I Inclusive Education: Introduction

- Inclusive Education: Concept, Principles, Scope and Target Groups (Diverse learners; Including Marginalized group and Learners with Disabilities),
- Evolution of the Philosophy of Inclusive Education: Special, Integrated, Inclusive Education,
- Legal Provisions: Policies and Legislations (National Policy of Education (1986), Programme of Action of Action (1992), Persons with Disabilities Act (1995), National Policy of Disabilities (2006),
- National Curriculum Framework (2005), Concession and Facilities to Diverse Learners (Academic and Financial),
- Rehabilitation Council of India Act (1992),
- Inclusive Education under Sarva Shiksha Abhiyan (SSA),
- Features of UNCRPD (United Nations Convention on the Rights of Persons with Disabilities) and its Implication

Unit-II Impairment/Disabilities

- Concept of Impairment, Disability and Handicap, Classification of Disabilities based on ICF Model,

sajata Mishra

Dr. Anil Kumar Singh

Pragati

PAPER –XIV

TEACHER EDUCATION

Course Objectives:

On the completion of course the student shall be able to

- discuss the concept, types and structure of teacher Education program.
- distinguish between pre-service and in-service teacher Education Program.
- define profession and professionalism
- elaborate the techniques of developing teaching competencies

Unit-I Meaning, Types, Curriculum and Models of Teacher Education

Meaning, Nature and scope of Teacher Education; Types of Teacher Education program. The structure of Teacher Education curriculum and its vision in curriculum documents of NCERT and NCTE at Elementary, Secondary and Higher Secondary levels, Organization of components of pre-service Teacher Education. Transactional and experimental learning. Models of Teacher Education.

Unit-II In-service Teacher Education

Concept Needs Purpose and scope of In-service Teacher Education, Organization and modes of In-service Teacher Education, Agencies and Institutions of In-service Teacher Education at District, state and National levels (S & A, RMSA, SCERT, NCERT, NCTE and UCG).

Sanjita Mishra.

Dr. Anil Kumar Singh

Dr. Anil Kumar Singh

Dr. Anil Kumar Singh

Dr. Anil Kumar Singh

Preliminary consideration in planning in-services Teacher Education Program (Purpose Duration Resources and Budget).

Unit-III Profession and Professional Development of Teacher

Concept of profession and professionalism, teaching as a Profession, Professional Ethics of Teachers. Personal and contextual factors affecting Teacher development.

ICT Integration, Quality Enhancement for Professionalization of Teacher Education, Innovation in Teacher Education.

Unit-IV Development of Teaching Competency

Inter disciplinary approach in Teacher Education, Internship in teaching, community living. Orientation courses, correspondence courses, Action Research, simulation Teaching, Interaction Analysis, Team Teaching, Problems of Teacher Educator.

PAPER-XV

DISSERTATION

COURSES OBJECTIVES

The Research/dissertation is visualized as a curricular space where students (with close mentorship/guidance of a faculty member) learn to plan and conduct a research, and write a thesis. It is also a space where students come to see and draw linkages between education theory (transacted through taught courses) and research. As a specialized professional experience, dissertation provides an M.A. (Education) student with an opportunity to investigate and understand the operational dynamics of a selected educational phenomenon. Various skills that are expected to be developed through this component include: articulating and formulating a research problem and research questions, designing a plan to study it, executing the plan (which includes engaging with the relevant body of literature and theory/theories), analysing and writing the findings in an academic fashion, and presenting the work. [However, this should not be seen as implying that the dissertation must be field-based. It may be a long essay/treatise/descriptive.]

COURSE CONTENTS/ACTIVITY

The students shall have to conduct a research during the M.A. (Education) programme under the guidance of a faculty teacher/Research scholar/ Research officer leading to Research Project Report / Dissertation. The topic/problem of the Dissertation/ Project shall be selected in consultation with the concerned

supervisor(s). The topic/problem of dissertation should preferably be in the area of specialization that a student opts or in the areas introduced in the perspective courses. The students shall submit a research report based on primary field data or secondary data or a treatise comprising of a long reflective and critical essay on an approved topic in three typed copies, within the time specified by the Department.

PAPER (EPC)-XVI

COURSES OBJECTIVES

Internship/Field Activity aims at engaging the students with field based situation and work in schools or Teacher Education Institutions/in organization/institution engaged in the development of innovative curriculum and pedagogic practices or national/state institution involved in curriculum design; text-book development; educational policy planning, formation and implementation; educational administration and management, and to provide an opportunity for reflection and writing on the same. This is also to facilitate a bridge between what students learn in classroom and observe in the field.

COURSE CONTENTS/ACTIVITY

- A: 10 day Internship in a Secondary School/Teacher Education/DIET/SCERT/Any other institution or organization related to text-book preparation/pedagogical & other innovative practices in education/educational policy/educational research & B: preparation of internship report (A+B - 4 credits)

Systematically planned Internship/ Field Attachment by the student shall be organized during the programme for ten days in those relevant kinds of institutions as mentioned in the objectives. Close mentorship of faculty or/and a member from the host association (field mentor) together guide groups of (3 to 5) students shall be provided for in the programme. The internship should be structured around some focussed tasks or projects which students may design (in consultation with faculty and field mentors) prior to going to the host organization. The student's participation in the tasks shall converge in an Internship/ Field Attachment report on the basis of which a part of assessment shall be done. A student's regularity, engagement in the field sites, and discussions with mentors (during pre- planning and during and after the internship) shall also be included in the assessment.
